ABHINAV DESHWAL

MCA STUDENT | CLOUD COMPUTING & DEVOPS | FULL-STACK DEVELOPER

Meerut, India - abhinavdeshwal01@gmail.com - github.com/DevPulseAbhi - linkedin.com/in/devpulseabhi - abhinavdeshwal.dev

MCA student specializing in Cloud Computing and DevOps, with a B.Sc. in Computer Science and hands-on full-stack project experience across Firebase, React.js, Java, and Python. Built and deployed a cloud-hosted booking platform and developed database-backed applications using Cloud Firestore, MySQL, and Oracle. Seeking an entry-level Cloud/DevOps or Full-Stack Developer role focused on deployment workflows, automation, and scalable software.

Java - Python - JavaScript - React.js - Firebase - MySQL - Oracle - Git & GitHub

Projects

ODYVIA

Cloud-Based Travel Booking Platform

Tech: *HTML5, CSS3, JavaScript, Firebase Authentication, Google Sign-In, Cloud Firestore, Firebase Hosting*

- Developed a responsive, user-friendly travel booking web application using HTML5, CSS3, and JavaScript.
- Implemented user authentication and Google Sign-In with Firebase Authentication.
- Integrated Cloud Firestore to store and manage booking data, and built an end-to-end booking workflow (no payment gateway).
- Deployed the application to the cloud using Firebase Hosting.

LEARNWISE

Adaptive Learning System

Tech: *React.js, Java, MySQL, Hibernate, REST APIs, Apache Tomcat, Maven*

- Developed a full-stack adaptive learning platform designed to support personalized learning experiences.
- Built a React.js frontend integrated with a Java backend through REST APIs; managed builds and dependencies with Maven.
- Designed the system architecture for user registration, login, and learning-related functionality.
- Used MySQL for persistent storage, with Hibernate handling database interaction.

CLOUDLEDGER

Cloud Resource Cost Analyzer

Tech: *Python, Streamlit, Oracle Database, SQL, PL/SQL*

- Developed a dashboard-based application for analyzing cloud resource costs, supporting cost visibility and resource monitoring.
- Built the user interface with Python and Streamlit.
- Integrated Oracle Database and used SQL and PL/SQL for structured data management and analysis.

Education

MASTER OF COMPUTER APPLICATIONS (MCA)

Chandigarh University - Cloud Computing and DevOps — Pursuing

B.SC. IN COMPUTER SCIENCE

CCS University, Meerut — Completed

Technical Skills

Languages: Java, Python, JavaScript, C, C++, SQL, PL/SQL

Frontend & Backend: HTML5, CSS3, React.js, REST API development, Hibernate, Firebase integration

Databases: MySQL, Oracle Database, Cloud Firestore

Cloud & DevOps (practical): Firebase Hosting, Git, GitHub, Oracle VM VirtualBox

Cloud & DevOps (foundational): Cloud computing concepts, CI/CD fundamentals, Linux

Tools: VS Code, Maven, Apache Tomcat, Streamlit

Hackathons

PECATHON 2026

Punjab Engineering College - team participation on privacy-focused and developer-assistance problem statements
